

The Solis S6-EH3P30K-H-LV series three-phase energy storage inverter is tailored for commercial PV energy storage systems. These products support an independent generator port and the parallel operation of multiple inverters. With 3 MPPTs and a 40A/MPPT input current capacity, they maximize the advantages of rooftop PV power. These products also offer ...

We provide single and three-phase high-efficiency PV string inverters for a capacity of 1kW to 60kW, storage inverters and all-in-one storage products. All of our inverters are integrated with smart monitoring system. We offer not just good products, but also high-efficient local support to our partners and users throughout the inverter life span.
