

Iran greenlinx battery

What is a greenlinx battery?

Greenlinx are the UK's first battery to use High Power Density (HPD) Lithium Cells, which can utilise 100% of the battery capacity (other lithium batteries can only use 90%). This is a battery unit that can easily be retrofitted into an existing solar panel system, or be a part of the design from the initial planning. So it is a flexible system.

Is the greenlinx 3200 HPD lithium battery 100% DoD?

Unlike other battery brands available on the UK market that only allow you to use 90% of the battery's capacity, the Greenlinx 3200 HPD Lithium battery is 100% DOD (Depth of Discharge)

Who is greenlinx?

Greenlinx is an established manufacturer of renewable technologies and battery storage solutions. The domestic and commercial battery solutions are distributed globally with a very strong market share.

How many greenlinx batteries can be connected?

Modular - from 1 to 8 Greenlinx batteries can be connected. We are online now! Need help? Call us now on 0800 156 0191 Do you know exactly what you are looking for? Yes! Don't worry, we're here to help either way! Free advanced monitoring: The Lux Power energy monitoring system can be accessed via a Web hub or phone apps.

Who makes greenlinx battery storage?

Greenlinx are exclusively distributed by Infinity Innovations Ltd. in the UK and Europe. While they are quite recent to the UK market they are by no means new to the battery storage industry. As later arrivals to the domestic battery storage market they have certainly raised the bar in almost all areas of performance and technological development.

How does greenlinx harnitek work?

Greenlinx Harnitek uses HPD lithium to achieve market leading charge and discharge levels. Smaller than other batteries this great looking battery has inbuilt modem to allow single batteries to be monitored online. Long and short cables provided with every unit, just plug and play set up for the most efficient battery we have ever distributed.
