Does Iraq have a green energy plan?

Iraq intends to generate 25% of its energy from green sources by 2030, and in 2022 made \$750m in low interest loans available to fund solar initiatives. An increase in renewable power will drive growth in green hydrogen and ammonia production.

Why is the US bringing American companies to Iraq?

The U.S. government is laser-focused on bringing American companies to Iraq to rebuild its energy sector in an attempt to edge out Chinese investors, reduce emissions from Iraq's burgeoning oil and gas production, and counter Iran's growing influence.

Which banks are investing in Iraq?

The London branch of JP Morgan Chase Bank is EXIM's guaranteed lender. Beyond EXIM, the U.S. International Development Finance Corporation is also investing in Iraq. A DFC official told me the active investment in Iraq's energy sector is \$299 million.

Is foreign help enough to fix Iraq's energy problems?

Foreign help is not enough to fix energy issues, domestic reform is necessary. This past July, Iraq and France's TotalEnergies finalized the Gas Growth Integrated Project, a \$27 billion energy deal aimed at Iraq's natural resources and improving the country's electricity supply.

What's going on with Iraq's natural gas deal?

REUTERS/Mohammed Aty/File Photo Purchase Licensing Rights WASHINGTON, April 17 (Reuters) - Iraqi and U.S. companies signed a series of agreements on Wednesday to capture natural gas traditionally flared from Iraq's oilfields and use it to produce domestic power while reducing dependence on neighboring Iran for energy.

How much does DFC invest in Iraq's energy sector?

A DFC official told me the active investment in Iraq's energy sector is \$299 million. The agency said its energy priorities in Iraq and across the entirety of its global portfolio are focused on wind, solar, methane abatement, carbon capture among other clean energy investments.
