

What is Iraq's refining capacity?

Iraq's total operating refining capacity is about 1.2 million b/d.<sup>27</sup> The Iraqi government plans to reduce petroleum product imports by rehabilitating the refining sector and building new refineries, but the government has struggled in its efforts to attract the foreign investment needed in the downstream sector.

Does Iraq have a gas-fired energy plan?

According to Middle East Economic Survey in their report 'Iraq Adds Upgrades to Gas-Fired Plans' (December 8, 2017), and the International Energy Agency's World Energy Outlook Special Report: Iraq Energy Outlook (October 2012) on page 92, Iraq has gas-fired energy plans. Iraqi Oil Report also mentions electricity reform in Iraq in their article 'Iraq pushes electricity reform, prompting protests' (January 18, 2018).

Why is Iraq's energy system vulnerable?

However the capacity to capture and process this gas has not kept pace. The inability to utilise its gas riches means that the country's gas deficit has grown, and Iraq now relies on imports from Iran to meet increasing demand. This has introduced a number of vulnerabilities to Iraq's energy system.

How much does Iraq pay Iran for natural gas?

According to Iraqi Oil Minister Ihsan Ismael, Iraq pays Iran \$8 per million British thermal units (BTU) for Iranian gas. By comparison, it is estimated that it would cost the government less than \$2 BTU to produce Iraqi natural gas.

Overview. Iraq (Federal Iraq and Kurdistan Regional Government) is the second-largest crude oil producer in OPEC after Saudi Arabia and the sixth-largest total petroleum liquids producer in the world. <sup>1</sup> It holds the world's fifth-largest proved crude oil reserves, at 145 billion barrels, representing 17% of proved reserves in the Middle East and 8% of global reserves (Figure 1). ...

of the energy sector in Iraq - There is a need to reconsider the establishment and governance of the National Oil Company, to make it able to manage the current partnership with foreign companies and to qualify it to manage the operations of the petroleum and gas extractive industry in all its phases after reducing dependence on foreign companies.
