

# Island grid Sint Maarten

What does gridmarket do for Sint Maarten?

GridMarket was chosen as Sint Maarten's exclusive renewable energy partner to help the island reach 85% renewable penetration and 100% heavy fuel oil free by 2030. Sint Maarten will work with GridMarket to identify, design, procure, and install distributed energy assets and make corresponding infrastructure upgrades.

How can gridmarket help small island developing states?

GridMarket brings the tools to efficiently scope projects and reduce typical technical and financial underwriting risk profiles, which are typically associated with similar renewable integration plans, and remain a major barrier to success for Small Island Developing States.

What is Sint Maarten's national energy policy?

renewable energy.<sup>10</sup> The plan also emphasizes the need to raise awareness of energy conservation among individuals and businesses through communication campaigns. Sint Maarten developed a National Energy Policy (NEP) in 2014 that aims to mitigate the impact of energy use on the environment while reducing electricity tariffs.

On a macro-economic level, energy costs are of great concern for the Government of Sint Maarten. In 2012 Sint Maarten spent a total of NAf 264.8 million on importing of oil products, which comprises a remarkable 18% of the total GDP<sup>1</sup>. This shows the heavy dependency on imported oil for Sint Maarten, and its country's vulnerability as this ...
