Is it time to install solar panels in the Manx?

Even on a bright Manx winters day a panel can generate a considerable amount of electricity (perhaps 30% of capacity). There is something very satisfying about receiving an energy bill from Manx Utilities which is not only zero, they might pay you because of excess energy sold to the grid. There has never been a better time to install solar.

Two surveys were conducted, one of 16 tracker companies, representing over 87% of the global market share from 2012-2021 and a second that focused on PV system owners, operators and O&M ...
