

How can enexion group help your business?

As enexion Group, we assist businesses in making the transition to a zero-carbon economy, allowing the battle against climate change while boosting their competitiveness. Enexion Group offers assistance at every step by consulting to business stakeholders as we establish your criteria and targets for climate risks with the help of our expert team.

Who is enexion group?

Enexion Group offers assistance at every step by consulting to business stakeholders as we establish your criteria and targets for climate risks with the help of our expert team. Enexion Group helps our clients create and implement a solid sustainability strategy that includes priority projects, milestones, key indicators and measurable targets.

Why should you join enexion?

As enexion, we offer support in the ASI membership and certification with our rich knowledge and experience in Strategic Smart Greening projects. Energy efficiency, carbon footprint reduction, and environmental impact studies are among the most important global climate change studies.

What is the enexion phase model?

With the enexion phase model, the CO₂ footprint of electricity and gas is analysed and, if desired, reduced according to the company's specifications. This can be done with verified certificates that completely or partially neutralize the company's CO₂ emissions.

What is the enexion smart Greening pyramid?

The enexion smart greening pyramid offers all sensible measures that follow the optimal path between sustainability and profitability, considering all relevant internal and external requirements. This ensures the best possible result while maintaining competitiveness.
