What will Reliance Enterprises do in Bhutan?

Jointly promoted by Reliance Infrastructure Ltd. and Reliance Power Ltd., Reliance Enterprises will concentrate on enhancing sustainable energy solutions across the country. The new company will implement smart distribution and metering systems, ensuring efficient energy management and accessibility throughout Bhutan.

Will Reliance Group & DHI jointly develop solar and hydropower projects in Bhutan?

Under the agreement, Reliance Group and DHI will jointly develop 500 MW of solar and 770 MW of hydropower projects in Bhutan. The 500 MW solar project, to be located in Gelephu Mindfulness City, will be developed in two phases of 250 MW each over the next two years.

What is a 500 MW solar project in Bhutan?

The 500 MW solar project, to be located in Gelephu Mindfulness City, will be developed in two phases of 250 MW each over the next two years. Upon completion, it will be the largest solar installation in Bhutan, surpassing all existing projects and contributing to the country's efforts in producing clean, renewable energy to combat climate change.

How will Reliance Group support Bhutan's net-zero goals?

Reliance Group will collaborate with government-owned companies in Bhutan to implement infrastructure projects that support Bhutan's net-zero goals. Reliance Group has established a new flagship company, Reliance Enterprises, to promote investment in Bhutan's renewable and green energy sector.

Should Bhutan diversify its energy sources?

In the face of climate change and the need for enhanced energy security, the business case for Bhutan to diversify its energy sources, especially by tapping into alternative renewable energy, is compelling. Bhutan is yet to realize its full potential in terms of renewable energy.

Why is Bhutan partnering with hydropower?

Bhutan's economy, projected to grow by 7.2% in FY25, is heavily reliant on hydropower, which constitutes a critical pillar for economic development and green job creation. The partnership is also seen as a step towards achieving Bhutan's diversification goals, moving beyond traditional hydropower to include solar and geothermal energy.
