Custom BMS for Large LFP Battery Module Nuvation designed a custom battery management system for a large LiFePO₄ (LFP) battery module that resembled a suitcase-sized cordless drill battery. The pure-hardware, microcontroller-free ...

The Low-Voltage BMS is a complete Battery Management System and can be expanded with a G4 Cell Interface module. To purchase spare parts or a kit, please visit the nStore. If you need technical support, please contact our product support team.

Custom BMS for Large LFP Battery Module Nuvation designed a custom battery management system for a large LiFePO₄ (LFP) battery module that resembled a suitcase-sized cordless drill battery. The pure-hardware, microcontroller-free solution simplified development by eliminating software overhead.

Custom BMS Nuvation Engineering designed a battery management system for Ambri's Liquid Metal Battery energy storage system prototype. Nuvation detailed the requirements, completed the ground-up electrical architecture, and built the circuit boards.

Nuvation Energy's Low-Voltage BMS is a UL 1973 Recognized battery management system that provides precise battery management and additional layers of safety assurance with features such as open wire detection, smart stack connection and disconnection, and sequential contactor disconnect under load.

"Nuvation Energy's battery management system impressed us with how reliably it managed our batteries. It is also easy to integrate with the range of inverters we support, and has a highly intuitive user interface for configuring the system and viewing battery status information."

The Low-Voltage BMS is designed for input voltage of 11-60 V DC. It can manage up to 12 or 16 battery cells in series, and can be expanded to manage additional cells with a Nuvation Energy G4 Cell Interface module.

With Nuvation Energy's configurable battery management system, accommodating different batteries is as simple as rolling out a BMS software configuration update. Pair our configurable BMS with standardized cell form factors to free your BESS from battery supplier dependence.
