Will Mellitah oil & gas develop a production platform in Libya?

Earlier this year, Mellitah Oil & Gas invited pre-qualifications for the development of Production Platform E. Giorfio Elia, Managing Director for North East Africa & Cyprus at Saipem, expressed the company's commitment to Libyan projects.

Why is Libya focusing on enhanced oil recovery?

Libya is also prioritizing enhanced oil recovery to maximize output from its mature oil fields and brownfield assets. The country is actively seeking international private sector partners to implement advanced technologies and carry out upgrades and maintenance works to enhance recovery rates and stabilize production.

Will Libya have the largest production platform in the Mediterranean?

"We have pre-qualified for Platform E, which will give Libya one of the largest production platforms in the Mediterranean. It will be a challenging endeavor--over 60,000 tons, with one of the largest jackets in the industry," he stated during the event.
