

HI70300L is an electrode storage solution prepared with reagent grade chemicals that can be used to ensure optimum performance of your pH and ORP electrodes. Properly storing your pH electrode in a solution keeps the ...

Restore proper electrode performance and prolong electrode life using Thermo Scientific(TM) Orion(TM) pH Electrode Storage Solutions in ready to use bottles. Storage Solutions: Storage solution ensures that the pH electrode works properly after prolonged storage, overnight storage and between samples

So the only real solution (pun intended) is to use electrode storage solution. Some storage solutions are just buffers with extra salt, so be sure to call LabtronX to get the scoop on the choices we provide our customers, including our own LX pH Storage Solution.

We have the pH buffers, storage solutions, cleaning solutions, kits and pH electrode filling solutions for every application. All Orion pH buffers and standards are traceable to NIST reference materials.

HI70300L is an electrode storage solution prepared with reagent grade chemicals that can be used to ensure optimum performance of your pH and ORP electrodes. Properly storing your pH electrode in a solution keeps the glass membrane well hydrated which maintains proper function and provides accurate readings.
