

Liechtenstein solar panel for agriculture in tamil nadu

Is agriculture land allowed under PM-Kusum scheme?

Agriculture land is also permitted under this scheme provided that solar plants are installed in slit fashion (i.e. raised structure for installation of solar panels) and with adequate spacing between panel rows for ensuring that farming activity is not affected. 3. Who is eligible under Component-A of PM-KUSUM Scheme?

How much solar PV can a farmer use?

Under this Component, farmers can solarize their existing grid connected agriculture pumps of capacity up to 7.5 HP. Solar PV capacity up to two times of pump capacity in kW is allowed under the scheme. However, States may choose to allow lower solar PV capacity, which in no case will be less than pump capacity in HP.

How to choose a solar plant supplier for TNEB project?

Only new plant & machinery shall be considered as per International Standards. The supplier shall be experienced EPC contractors/reputed manufacturers with proven good track record. Performance guarantee and warranty for solar plants for at least 10 years shall be insisted. For captive consumption or sale of power to TNEB projects.
