

Lina energy ltd Dominica

Who are the Lina energy executive team?

LiNa Energy Executive Team (7) Update this profile Name Title Board Seat Contact Info Gene Lewis Ph.D Chief Executive Officer & Director James Morrish Chief Financial Officer & Board Member Richard Dawson Ph.D Co-Founder, Chief Technology Officer & Board Member Mark Boland Co-Founder, Company Secretary & Board Member William Tope

How does Lina energy storage work?

On discharge, the sodium is oxidised back to sodium ions and travels through the conductive backbone, recrystallising in the cathode. LiNa's energy storage systems take a radical approach to thermal management, providing customers with low-cost and high performance energy storage even in high ambient temperatures.

How do I view Lina energy's valuation and funding history?

To view LiNa Energy's complete valuation and funding history, request access » LiNa Energy Cap Table Stock # of Shares Authorized Par Value Dividend Rate (%) Original Issue Price Liquidation Liquidation Pref. Based in Lancaster with newly expanded lab facilities, LiNa Energy is privately held and boasts an energetic team of engineers and electrochemists alongside commercial and product development experts. We are ambitious and ...

LiNa Energy is a developer and provider of low-cost solid state sodium batteries, with a focus on the renewable energy storage market. LiNa Energy was created as a spin-out of Lancaster University, where the founders Dr Gene Lewis and ...

The energy storage infrastructure specialist managed last week's successful test with a view to deploying the battery into the grid storage market in the coming years. Gene Lewis, CEO of LiNa Energy, commented: "Batteries are enabling the megatrends of decarbonisation of energy and electrification of transport. We have developed lithium and ...

LiNa Energy's proprietary re-engineering of the sodium-nickel chloride battery produces a c.\$50/kWh, safe, cobalt-free, durable platform with KPI performance superior to incumbent LiBs ideal for large-format, high-growth, storage and transport markets. For more information, please visit:

Lina energy ltd Dominica

Based in Lancaster with newly expanded lab facilities, LiNa Energy is privately held and boasts an energetic team of engineers and electrochemists alongside commercial and product development experts. We are ambitious and galvanised around our mission: to help the energy and industrial sectors get to Net Zero faster.

Lina Energy Technology(Shenzhen)Co.,LTD was established in 2017, specializing in R & D, manufacturing and sales of power supplies, solar power station, solar panel and other related products. Our customers have been distributed in US, Germany, UK, Southeast Asia, Japan, Australia, etc. We have our own professional marketing salesmen, and ...

LiNa Energy may be growing as it has recently secured a significant investment of EUR4M to further develop its solid-state sodium batteries. This financial injection suggests an expansion of research and development capabilities, which is a strong indicator of growth. ... Legal Name Lina Energy Ltd; Company Type For Profit; LiNa Energy is ...

LiNa systems run at an internal temperature of 250°C and for good reason. Our systems replace conventional liquid cooling and refrigeration with passive vacuum insulation and we've proven that when you remove the need to keep cells cool, your costs are lower and performance actually improves: we're proud to deliver system round-trip ...

We are extremely excited to welcome Will as the new CEO of LiNa as we accelerate our revenue generation and commercialisation journey" Arvind Sabharwal, Chairman of the Board at LiNa Energy. Emerging in 2017, LiNa has pioneered the development of their solid-state sodium battery platform which enables high performance from abundant raw ...

Rooftop solar battery energy storage systems: 10-50 kWh of energy, enabling distribution companies to deliver clean power to homes or communities at the lowest cost-per-electron. Commercial and industrial storage: powering ...

The answer? Medium-duration storage that enables the shifting of excess solar energy into the evening and wind energy to the morning. LiNa batteries are optimised for this need - which existing technologies do not adequately serve ...

LiNa Energy is a developer and provider of low-cost solid state sodium batteries, with a focus on the renewable energy storage market. LiNa Energy was created as a spin-out of Lancaster University, where the founders Dr Gene Lewis and Dr Richard Dawson combined their expertise in ceramics and electrochemistry and applied this to the problem of ...

LiNa Energy has closed out a £3.5m late seed funding round, attracting a combination of existing and new investors who recognise the vast potential of their game-changing battery technology. This funding will enable the company to advance their technology through expanding their laboratory facilities, stepping-up recruitment and buying new ...

Lina energy ltd Dominica

LiNa Energy Ltd is a clean tech company which addresses a rapidly growing need for sustainable and low-cost energy storage. LiNa is commercialising high performance solid-state sodium batteries which offer inherent safety, greater sustainability, and lower cost versus lithium-ion. Containing zero cobalt or lithium, LiNa's batteries can be ...
