Who is LinkData?

Linkdata was founded in 2009, and a global R & D center which combines technology and research was established with the idea of science and technology as the first. It is headquartered in Zhongguancun Environmental Protection Science and Technology Park, with 30 thousand square meters of office building.

Will LinkData supply high-quality lithium-ion batteries to the global EV market?

Furthermore, as Linkdata's fast-charging power batteries are about to enter mass production this year, large pre-orders from Chinese and international carmakers are already coming in, signaling that the firm is well-positioned to supply high-performance, high-quality lithium-ion battery/cell products to the global electric vehicle (EV) market.

What's new at LinkData's 'giant haul' launch event?

Another highlight of Linkdata's launch event is the unveiling of a new heavy-duty electric truck brand Giant Haul (Yuandong). The brand's universal electrification platform for EHDV EVs satisfies all vehicle requirements for 6x4 semi-trailer trucks.
