

With 189 member countries, staff from more than 170 countries, and offices in over 130 locations, the World Bank Group is a unique global partnership: five institutions working for sustainable solutions that reduce poverty and build shared prosperity in developing countries.

Access to energy is a cornerstone of the GOM's efforts to lift Madagascar out of poverty. The objective is to double energy production within five years, increase access to electricity for at least 70 percent of the population by 2030, improve reliability of supply, and reduce energy prices.

With the PowerBox Terminal program you can update the software of your PowerBox devices with little effort. You can find out what new features are available for your product in the Forum. All software updates are of course free of charge. PowerBox Terminal (Win ...

The iGyro 3xtra ushers in the second generation of the iGyro family. The new iGyro 3xtra boasts a completely revised regulatory algorithm and set-up procedure, expanded features and enormously enhanced performance, making it the new "State of the Art".. In contrast to its predecessor - the 3e - the new iGyro no longer incorporates delta and V-tail mixers.

The current edition of our product catalog contains a complete overview of our PowerBox Systems products, as well as more information about the PowerBox-Systems company. We would be delighted to send you a printed version. Please use the form below for this.

With this objective in mind, Nano&#233;, a French-Malagasy social company, is developing the lateral electrification model, based on the collaborative and progressing building of electric infrastructures, which is presented in this article, first from a general point of view and then through a focus on Nano&#233;'s experience in Madagascar.
