Where can I find information about energy in Malawi?

Ministry of Natural Resources, Energy and Mining, Department of Energy Affairs, Capital House, City Centre, P/Bag 309, Lilongwe 3. MALAWI Tel No. (265) 1 770688 Fax No. (265) 1 770094/771954 E-mail: info@energy.gov.mw Copyright © 2018 Ministry of Natural Resources, Energy and Mining All rights reserved.

How does Malawi use its energy?

Malawi gets over its total energy from oil, which is fossil fuel. We depend on this fuel to run our vehicles, generators, power industry and manufacturing, and provide us with electricity in the absence of hydro power. Petrol and diesel powers many of our municipal transportation fleets and the trucks that deliver goods to markets.

What are some solar energy developments in Malawi?

In Malawi, solar energy developments are helping local communities maintain sustainable energy. For instance, Bwengu Projects Malawi provides teachers in high-needs schools with solar-powered LED projectors in Bwengu, the northern countryside of Malawi.

What is electricity access & energy balance in Malawi?

Electricity Access: In Malawian context, means connection to and usage of electricity from national grid, mini-grids, own generators, Solar PV home systems and Pico Solar Products. Energy Balance: A coherent picture about the flows of all types of energy from their original form, through transformation processes to their final use.
