

How much solar power does Malawi currently have?

Malawi had an installed solar power of around 24 MW at the end of 2020, according to the International Renewable Energy Agency. With a population of approximately 19 million people, the landlocked nation has a power generation capacity of around 363 MW, around 90% of which comes from hydropower.

Where is Malawi's first solar power plant located?

The centrally located facility is Malawi's first solar power plant connected to the national grid, a project successfully completed under a public-private partnership (PPP). The President of the Republic of Malawi Lazarus McCarthy Chakwera visited the Salima district, 101 km from the capital Lilongwe, on November 16, 2021.

Is Malawi a good place to invest in solar energy?

"Salima Solar is the first solar PV plant in Malawi to be connected to the national grid. As such, it is a model for future projects in several ways... In particular, it demonstrates that Malawi is an attractive destination for private sector investment in energy," says President Lazarus McCarthy Chakwera at the plant's inauguration ceremony.

How many GWh will the Salima solar power plant produce?

The Salima solar plant will be capable of producing 154 GWh per year. The Salima solar power plant is the result of a public-private partnership (PPP) project originally developed by JCM Power Corporation, Matswani, and InfraCo Africa, a Private Infrastructure Development Group (PIDG) company.

Who guarantees a solar plant in Africa?

The solar plant is guaranteed by the Africa Trade Insurance Agency (ATI), a financial institution established by seven Common Market for Eastern and Southern Africa (COMESA) countries with technical and financial support from the World Bank to provide insurance against political and commercial risks. Jean Marie Takouleu

What is the Salima solar project?

The project also engaged a professional chef from Lilongwe to train a team of local women to prepare and serve free, nutritious meals for the construction team each day from the on-site African Food Kitchen facility. The Salima Solar project ties in with Power Africa initiatives in the region which aim to connect more people to the national grid.
