

Miba Battery Systems serves a diverse range of sectors with applications in automobiles, off-highway machinery, motorcycles, boats, drones, and stationary uses. It was founded in 2019 and is based in Bad Leonfelden, Austria.

Miba Battery Systems is a pioneer in the development and production of battery packs and energy storage systems on the basis of round cells and battery components. We were the first supplier worldwide to develop an innovative contacting process for welding round battery cells efficiently.

Der amtliche und aktuelle Firmenbuchauszug wird durch die FirmenABC Marketing GmbH als Offizielle Verrechnungsstelle der Republik ÖSTERREICH angeboten und bestätigt die Identität einer Firma und ihre Funktionsträger.

Systems can be scaled by interconnecting several packs, while the flat design means that it can be optimally integrated into vehicles such as transporters. The integrated matrix controller enables parallel switching, enabling further flexibility and scalability.

A new technical partnership has been announced that will see Miba Battery Systems (Miba) and ultra-premium EV brand Aehra co-develop bespoke battery solutions for the vehicle manufacturer's all-electric SUV and sedan models.
