Who is Rimac energy?

This fast-growing #BatteryEnergyStorageSystems designer, developer, and manufacturer from Croatia joins the conference as a silver sponsor. Rimac Energy, a division of Rimac Technology, headquartered in Zagreb, Croatia, with additional offices in Witney, Oxfordshire, specializes in advancing Battery Energy Storage Systems #BESS technology.

Is Rimac energy launching a stationary energy storage system in 2025?

REUTERS/David 'Dee' Delgado/File Photo Purchase Licensing Rights SARAJEVO, Jan 31 (Reuters) - Rimac Energy, a new subdivision of Croatian electric carmaker Rimac Technology, is expanding production to include an innovative stationary energy storage system that will be fully launched in 2025, the company said on Wednesday.

How many employees does Rimac energy have?

The new brand said it has slowly been assembling its team of 60 employees from within Rimac Technology over the last 18 months - all of whom are working on the brand's first generation of stationary energy storage solutions. Rimac Energy director Wasim Sarwar Dilov elaborated:

What can Rimac energy do for You?

To begin, Rimac Energy plans to provide solutions for large commercial, industrial, and utility-scale applications, relaying that battery-buffered fast and mega-watt charging technology is already in development.

What does Rimac do?

As part of the broader Rimac Group, the company focuses on designing, developing, and manufacturing innovative stationary BESS solutions entirely within Europe.

When will RIMAC energy start production?

After they are produced, Rimac Energy expects to commission the pilot projects in 2024 ahead of mass manufacturing planned for 2025. Once that process begins, Rimac shared that it intends to continuously scale to over 10GWh of capacity produced annually. Rimac Automobili founder and CEO Mate Rimac also spoke:

With its Rimac Energy division focused on stationary energy storage systems, Rimac Technology is dedicated to advancing electric mobility and sustainable energy solutions. Ownership. 100%. Locations. 6. Employees . 1,100+ ...

When Rimac first revolutionized electric vehicles by creating the world's fastest electric production car--the Nevera--we proved that electric mobility could redefine performance. That same pioneering spirit now drives our mission in ...
