BATREC is your partner to give a second life to your waste. We process batteries, mercury-contaminated wastes, liquid mercury and mercury absorbents for customers around the world. We also reactivate spent activated carbon used in gas/air and water treatment applications.

We process batteries, mercury-contaminated wastes, liquid mercury and mercury absorbents for customers around the world. We also reactivate spent activated carbon used in gas/air and water treatment applications. Batrec Industrie AG transforms waste into a resource and ensures a closed-loop material life cycle.

BATREC INDUSTRIE AG, 1989, Wimmis, Suisse. Batrec Industrie AG, 1989, Wimmis, Suisse. Batrec Industrie AG, 1989, Wimmis, Suisse.

Since 1992, BATREC has treated hazardous waste and became a world leader in the treatment of toxic substances and the recovery of metals. In addition to being a technologically advanced plant we support our customers in all aspects of administration, transport and packaging.

In 2013, BATREC officially joined VEOLIA as part of SARP Industries. SARP Industries is specialised within the Veolia Group in the treatment of hazardous waste. SARPI is present in 6 geographical areas and treats more than 46 million tons of hazardous waste per year.

Leitbild der Batrec Industrie AG Leitsätze & allgemeine Unternehmenspolitik o Wir schaffen Rohstoffe aus Abfällen. o Der Schutz der Umwelt, sowie die Gesundheit und Sicherheit unserer Mitarbeitenden, hat höchste Priorität für uns. o Wir wollen motivierte Mitarbeitende und sind ein fairer Arbeitgeber.

2013 wurde BATREC offiziell Teil von SARP Industries innerhalb des Veolia-Konzerns. SARP Industries ist das Unternehmen der Veolia-Gruppe, das sich auf die Verwertung von Sonderabfällen spezialisiert hat. SARPI ist in sechs geografischen Regionen tätig und verarbeitet jährlich mehr als 46 Millionen Tonnen Sonderabfälle.

BATREC participates in the phase-out of mercury by stabilising it into mercury sulphide, using a sulfur stabilisation solution, which will then be stored in a sustainable manner. A global solution... In the era of clean technology and corporate responsibility, mercury presents a huge challenge to industries worldwide.

BATREC Industrie AG's services. Project management. BATREC is regularly requested in tenders or directly by waste generators to also manage projects including repackaging, trans-boundary transport and permits as well as final treatment. Find out more. Transboundary movements of waste.

BATREC was founded in 1989 by a group of companies and interested stakeholders. Various Cantons quickly joined the project as shareholders or fund donors. The battery recycling facility was created in 1991. Following a need for respectful treatment of mercury in batteries, BATREC built its mercury distillation facility.
