

Does Myanmar use solar power?

Myanmar has rich technical solar power potential, which is the highest in the Greater Mekong Subregion. However, in terms of installed capacity, Myanmar lags largely behind Thailand and Vietnam. Even so, the country does utilize solar power.

Where is Myanmar's first solar power plant located?

Myanmar's first solar power plant is located in Minbu, Magway Division. The plant produced 40 megawatts (MW) of electricity in its first phase of operations and will produce 170 MW once fully operational.

What are photovoltaics used for in Myanmar?

In rural areas of Myanmar, photovoltaics are used for charging batteries and pumping water. Approximately 70% of Myanmar's population of 50 million live in rural areas. Myanmar opened its first solar power plant in Minbu, Magway Division, in November 2018.

How many kilowatts can a Myanmar power plant produce?

Source: Ministry of Electricity and Energy, Myanmar (2017) Supply and demand The power plant will have a total capacity of 170 megawatts (MW) and is capable of producing 350 million kilowatt hours (kWh) annually, electrifying about 210,000 households.

How much money does Myanmar need to invest in electricity?

Tellingly, the World Bank notes that Myanmar needs to invest twice as much - up to US\$2 billion annually - and implement projects three times faster if it is to address its rapidly growing electricity demand.

How will Myanmar's economic growth affect investors?

Myanmar's economic growth is expected to rise to 6.5 percent in the 2018-19 fiscal year due to strong performance in its industrial and services sectors - and the lack of electricity is a huge turn-off for any investor.

Solar power in Myanmar has the potential to generate 51,973.8 TWh/year, with an average of over 5 sun hours per day. Even though most electricity is produced from hydropower in Myanmar, the country has rich technical solar power potential that is the highest in the Greater Mekong Subregion; however, in terms of installed capacity Myanmar lags largely behind Thailand and Vietnam.

The Ministry of Electricity and Energy will soon announce the winners of its billion-dollar solar tender, officials say, after receiving more than 150 bids, the majority from ...
