

Where is ingeteam based?

Ingeteam's headquarters in Spain. Image: Ingeteam. Energy conversion equipment specialist Ingeteam will supply a 70MW/340MWh battery energy storage system (BESS) in northern Italy for a 2023 delivery date.

How long will ingeteam's battery energy storage system last?

It will have a duration of nearly five hours and will come into operation in 2023. Ingeteam will supply a 70MW/340MWh battery energy storage system (BESS) in northern Italy for a 2023 delivery date.

Where will ingeteam manufacture the inverters and transformer stations?

Ingeteam to manufacture the inverters and transformer stations, which will be delivered over the summer for the Oasis de Atacama project, developed by Grenergy in northern Chile, set to become the largest capacity battery storage project in the world.

What is the world's largest battery storage facility?

Ingeteam has been selected by Grenergy as its technology partner for what will be the world's largest battery storage facility when in operation. The Oasis de Atacama project, developed by Grenergy in the Chilean Atacama Desert, will be built in five phases, which combine photovoltaic generation with battery energy storage.

Why is Chile launching a battery energy storage project?

This stunning project arrives in the context of the Chilean government's firm commitment to battery energy storage technology under Law 21505, which was approved in November 2022. The law, among other aspects, seeks to promote the inclusion of renewable energy (mainly wind and photovoltaic) in the electricity matrix.

1 ??&#0183; Ingeteam Italia, produttore nel settore delle rinnovabili, propone per il mercato del fotovoltaico un sistema di storage modulare per impianti commerciali e industriali composto da ...

Energy conversion equipment specialist Ingeteam will supply a 70MW/340MWh battery energy storage system (BESS) in northern Italy for a 2023 delivery date. The company, based in Spain but with operations globally, ...
