Today it has grown into an empire of diverse portfolio for electrical and power sector under the banner of Myanmar Padauk Power Company Limited, offering robust electrical and power solution, accessories and services.

Portable generators are powered by a variety of fuels, including gasoline, diesel. They can be easily moved from place-to-place and must be manually started. Portable generators are rated by the amount of power they produce, which are called watts.

You can usually see people use this solar generator during camping, fishing at night, or in rural/uncivilized areas where electricity is very limited. They use it as a backup power source in case the power cuts off.
