

# Nala energy Falkland Islands

What is Nala renewables?

Nala Renewables is a 50/50 joint venture between Trafigura and IFM Net Zero Infrastructure Fund. Nala benefits from a global network combined with a unique business-building approach and renewable energy expertise. Our partners' strengths are our strengths. Trafigura is one of the world's leading independent commodity trading companies.

What is Nala energy?

Nala Energy's storage systems provide electricity consumers with a dual economic savings and revenue generation value proposition. Renewable energy accounts for an increasing portion of our electricity supply, but intermittency is a growing constraint.

What is the Portfolio status of Nala renewables?

Portfolio Status: ~50 MW total capacity, ~50 MW of tangible development pipeline. Nala Renewables is a 50/50 joint venture between Trafigura and IFM Net Zero Infrastructure Fund. Nala benefits from a global network combined with a unique business-building approach and renewable energy expertise.

What does Nala do?

The Nala team has extensive expertise across the entire renewable energy value chain, from development and construction to operations. Together with our global partners, we are committed to reducing carbon emissions and meeting the increasing demand for clean power. Active Sectors and Technologies: Solar PV and Onshore Wind.

Why invest in Nala energy storage?

With Nala Energy's storage systems, utilities can rely on a cleaner, more efficient energy mix while deferring costly infrastructure upgrades. Nala Energy solutions provide utilities with a triple play value proposition: infrastructure upgrade deferral, locational capacity and time shifting renewables.

How does Nala contribute to the decarbonisation of energy systems?

energy. Nala builds and invests in green energy infrastructure. Through our growing portfolio, in development through to operational, we are actively contributing towards the decarbonisation of energy systems around the world.

Wir entwickeln schl&#252;sselartige Gro&#223;batteriespeicher f&#252;r Versorger und Entwickler und unterst&#252;tzen von der Planung und Installation bis zur langfristigen Betriebsf&#252;hrung. Das Herzst&#252;ck unserer Batteriespeicher-Systeme sind die ...

Nala Renewables will acquire a 61MWp solar photovoltaic project in western Romania from renewable energy group Monsson. ... The solar project also has an opportunity for capacity expansion through the
