

Nauru ineos energy

Who is INEOS?

We are an energy company committed to meeting the needs of our customers today and throughout the energy transition. We are a key supplier of energy and carbon storage solutions to our internal INEOS customers as well as third parties. We produce and trade oil, gas, Liquefied Natural Gas (LNG) and carbon credits.

What are some examples of Ineos energy?

Good examples of this are Project Greensand, our pioneering Carbon Storage project in the Danish North Sea and our investment in HydrogenOne Capital. "At INEOS Energy we are looking to provide the tools for people to be able to decarbonise their energy consumption."

Where is INEOS energy located?

INEOS Energy operates a number of key producing offshore assets across the UK and Danish parts of the North Sea along with onshore assets in South Texas, USA. We continually put safety and reliability of supply as a core principle across our operations in both Europe and the US.
