It perhaps demonstrates the complexities of the Tesla Roofs installation, making the cost seem reasonable and worthwhile. We estimate by the time Tesla Solar Roof Tiles finally arrive in New Zealand, the price tag on them could be around \$113,894 to \$143,363 in NZ dollars.

How much does a solar roof cost in New Zealand?

The article from Electrek summarised that for a 367m² roof, with a 12.3kW solar tile roof, the cost would be between \$79,938 and \$100,621 US dollars, so that's \$113,894 to \$143,363 in New Zealand dollars. Just to compare: A standard steel roof replacement in NZ is said to cost \$56 per meter square (according to Refresh), so roughly \$20,000.

Are solar roof tiles expensive?

Initial cost: As a more recent innovation, solar roof tiles are significantly more expensive than regular solar panels to install. In addition, the solar tiles currently on the market are only available as part of custom whole-roof solutions.

What are solar roof tiles?

Solar roof tiles are just like smaller, compact solar panels. However, rather than being positioned and bolted onto an existing roof like a regular solar panel, solar roof tiles are incorporated into the design of the roof itself, thanks to their tile-like design. This allows them to blend seamlessly into a home's existing roofline.

Are Tesla Solar Roof tiles worth it?

Going with Tesla's Solar Tiles will be a huge price leap from a standard roof and solar. But for those who can afford the opportunity to have an amazing looking roof, while being an early adopter of solar roof tiles, it could be well worth the investment. The Extra Cost Of A Tesla Solar Roof; Is It Worth It?
