

What is VPI Shoreham?

Delivering reliable electricity,VPI Shoreham is one of the most efficient plants of its kind. Online since 2000,VPI's Shoreham plant provides 460MW of electricity. The combined cycle gas system uses a single GE/Alstom GT26 turbine and ABB steam turbine and generator.

What is VPI Immingham CHP plant?

VPI Immingham CHP Plant (VPI Immingham CHP Plant Phase I) is equipped with Franco Tosi Meccanica steam turbines. The phase consists of 2 steam turbines,each with 115.1MW nameplate capacity. VPI Immingham CHP Plant (VPI Immingham CHP Plant Phase I) is equipped with GE Power 9FA gas turbines.

What is Immingham CHP?

Immingham is a critical provider of flexible energy generation and one of the most efficient CHPs in Europe. In operation since 2004 with further expansion in 2009,VPI's Immingham combined heat and power(CHP) plant has been providing energy to homes and businesses ever since.

Who supplied electric generator for VPI Immingham CHP plant?

Franco Tosi Meccanicasupplied electric generator for the VPI Immingham CHP Plant (VPI Immingham CHP Plant Phase I). Toshiba supplied electric generator for the VPI Immingham CHP Plant (VPI Immingham CHP Plant Phase II). GE Power supplied electric generator for the VPI Immingham CHP Plant (VPI Immingham CHP Plant Phase II).

Does VPI Immingham CHP plant have a steam turbine?

VPI Immingham CHP Plant (VPI Immingham CHP Plant Phase II) is equipped with Toshiba steam turbine. The phase consists of 1 steam turbine with 200MW nameplate capacity. Franco Tosi Meccanica supplied electric generator for the VPI Immingham CHP Plant (VPI Immingham CHP Plant Phase I).

Who is VPI Blackburn?

VPI Blackburn has been reliably supplying a major industrial region with powersince 2002. With commercial operations starting in 2002,VPI Blackburn has continued the power generation legacy of the region,providing vital power supply to northwest England's manufacturing area.

Immingham Combined Heat and Power Plant (also known as VPI Immingham) is a combined heat and power, gas-fired power plant adjacent to the Humber Oil Refinery near to South Killingholme North Lincolnshire, England. The plant opened in 2004 with a 730 MW generating capacity, and was expanded to 1,180 MW in 2009; the station was developed by ConocoPhillips until ...
