

When will Oman launch a solar project?

In January 2024, Oman launched a public tender for another 500 MW solar project, Ibri Solar III, with commercial operations due to begin in the fourth quarter of 2026. Public tenders are expected for three new solar projects and five wind projects between 2025 and 2029.

Is Oman a good place to invest in solar power?

The recommendations form part of the "Oman Solar investment opportunities" report, the latest work from SolarPower Europe's Global Markets unit. The report said that Oman's current electricity mix is primarily based on natural gas, accounting for 96% (38 TWh) of power generation in 2022, compared to solar at 3.8% (1.5 TWh).

How can Oman achieve net-zero energy goals?

SolarPower Europe has urged Oman to pursue greater integration of renewable energy, liberalize its market structure, and optimize grid infrastructure to meet its ambitious net-zero targets. The recommendations form part of the "Oman Solar investment opportunities" report, the latest work from SolarPower Europe's Global Markets unit.

4 ???&#0183; This utility-scale solar photovoltaic farm, which is scheduled to be commercially operational in Q2 2026, marks a major milestone in PDO's renewable energy journey. By harnessing solar power, the project will reduce ...

Sheida Solar made its debut at the Oman Sustainability Week 2024, which was held in Muscat during April - May this year. Julanda al Balushi, Chief Executive Officer, led a team of senior company executives at Sheida Solar's stall at the event.

Sheida Solar, as the new plant is called, is set to be the first of a growing handful of investments targeted the production of solar photovoltaic (PV) systems, and related hardware, for Oman's mega-billion dollar renewable energy and green hydrogen industries.

In January 2024, Oman launched a public tender for another 500 MW solar project, Ibri Solar III, with commercial operations due to begin in the fourth quarter of 2026. Public tenders are expected for three new solar projects and five wind projects between 2025 and 2029.

In an early boost for Oman's drive to localize the production of hardware for its giga-scale green hydrogen projects, Chinese solar photovoltaic manufacturer Hainan Drinda New Energy Technology has announced the signing of a provisional agreement with Oman Investment Authority (OIA) for the establishment of a first-ever photovoltaic cell ...

3 ???&#0183; The announcement came during the Korea-Oman Renewable Energy Roundtable held on Thursday, December 12, 2024, under the auspices of Eng Salim bin Nasser al Aufi, Minister of Energy and Minerals. Also in attendance were Kiejoo Kim, Ambassador of the Republic of Korea to the Sultanate, and high-level executives from the Korea Trade Investment ...

3 ???&#0183; The announcement came during the Korea-Oman Renewable Energy Roundtable held on Thursday, December 12, 2024, under the auspices of Eng Salim bin Nasser al Aufi, Minister of Energy and Minerals. Also in attendance ...

Oman takes green hydrogen gamble; The \$400 million solar park will span 10 million square metres and commercial operations should start by the end of 2026, according to the tender document seen by AGBI. Ibri II, ...

4 ???&#0183; This utility-scale solar photovoltaic farm, which is scheduled to be commercially operational in Q2 2026, marks a major milestone in PDO's renewable energy journey. By harnessing solar power, the project will reduce CO2 emissions by over 220,000 tonnes annually and save millions of cubic metres of natural gas each year.

Italian manufacturer Ecoprogetti recently completed its first solar panel production line in Oman. The Sheida Solar facility, operated by Oman-based Sheida Industries, is located in...

Oman takes green hydrogen gamble; The \$400 million solar park will span 10 million square metres and commercial operations should start by the end of 2026, according to the tender document seen by AGBI. Ibri II, Oman's first 500MW solar project, was inaugurated in 2022, and other large scale solar parks are in the pipeline.
