Who is Outback power?

OutBack Power designs and manufactures off grid and grid connected solar plus storage systems for energy independence. Whether you need a solar inverter, solar battery, or other renewable energy product, OutBack is the choice for your system.

Where can I find out more about Outback power?

For more information about OutBack Power, please visit [Don't miss out on their year-end discount!](#)

Does OutBack Power offer a year-end discount?

OutBack Power (TM) is offering year-end discounts on our most popular charge controllers, inverters, and pre-wired power systems including the FLEXmax charge controllers, Radian inverter/chargers, FXR/VFXR inverter/chargers, mobile inverters, and FLEXpower(TM) pre-wired inverter systems.

What is Outback & how does it work?

OutBack initially designed and manufactured integration hardware used by solar installers to house and protect power electronics installed in remote environments, often harsh locations around the world.

Is Outback a good company?

They are a customer centric company, and has earned trust by establishing themselves as such. OutBack offers a wide product line of inverters, charge controllers (MPPT), and other products suitable for battery based, off-grid, and even grid-tie solar applications.

What products does Outback offer?

OutBack offers a wide product line of inverters, charge controllers (MPPT), and other products suitable for battery based, off-grid, and even grid-tie solar applications. OutBack Power's complete line is known for highly rugged durability and reliability for use of their products in even the harshest environments.
