

You are free to download, share, adapt, use the maps but you must credit the source on the appropriate place as follows: Solar resource map © 2021 Solargis. We also request you to provide a backlink to <https://solargis website> when appropriate.

With Solargis" expert and hands-on consultancy services, you will better understand, manage, and reduce weather-related risks in solar power projects. We offer bankable energy assessment and risk evaluation at the project level or a broader regional analysis for all strategic initiatives.

The Global Solar Atlas provides a summary of solar power potential and solar resources globally. It is provided by the World Bank Group as a free service to governments, developers and the general public, and allows users to quickly obtain data and carry out a simple electricity output calculation for any location covered by the solar resource database.

You are free to download, share, adapt, use the maps but you must credit the source on the appropriate place as follows: Solar resource map © 2021 Solargis. We also request you to ...

Solar resource and PV power potential maps and GIS data can be downloaded from this section. Maps and data are available for 200+ countries and regions. Please select a region or a country in the menu below. The maps and data have been prepared by Solargis for The World Bank.

To address this issue, Palau invited Solar Pacific Energy Corporation (SPEC), Alternergy"s solar developer, to develop a clean, renewable energy source. SPEC has been cultivating relationships in Palau since 2014.
