High solar irradiation at the coast of Panama is ideal to run PV Off-Grid systems. The diesel generator that had been serving the loads in the kitchen before, was running every day for several hours thus consuming high amounts of diesel.

PHASEUN offers mobile & stationary solar modules and accessories on both the domestic and international markets. With an in-house development and innovation department, PHASEUN designs reliable and efficient off-grid solar components, so that the we can all benefit from the energy from the sun and increase our quality of life.

About 16 banks in the Panamanian square received training on photovoltaic solar energy and at least six have specific mechanisms to finance solar systems for the population "at a good price," including the Savings Bank, ...
