

Papua New Guinea onestop solar

Who is solar energy Papua New Guinea?

We are Papua New Guinea's leading solar energy company, providing high quality solar services for your home or business through renewable energy. WHY USE SOLAR? Despite huge popularity in the rest of the world solar power has yet to take off in PNG.

Will solar power be the next stage in PNG?

Electricity in PNG is still very expensive and the cost of solar power continues to fall each year. Now we're seeing similar price drops for batteries, and I think that will be the next stage for solar projects, as many of them will begin to include energy storage.

Is solar a good investment in PNG?

Even without incentives or feed-in tariffs, in PNG the economic advantage of solar is still overwhelming with ROI approaching 37 per cent for some projects. The first medium and large-scale solar projects will be commissioned over the next six months, which will trigger exponential growth in 2021 and likely many more players to enter the market.

Are Papua New Guinea's first electric vehicles coming to Port Moresby?

Papua New Guinea's first plug-in electric vehicles (EVs) - two cargo vans and a passenger bus - have appeared on the streets of Port Moresby. Ruby Gamoga reports. Improved access to finance could the rapid development of solar power, according to Jon Pittar, Managing Director of solar provider, Solar Solutions PNG.

What progress has solar energy made in Papua New Guinea and what is its potential, particularly for business? Christian Lohberger, President and founder of the Solar Energy Association of PNG and co-founder of Astra Solar ...

Papua New Guinea has the perfect climate for solar, and is the key to achieving an ambitious government plan to bring electricity to the 70 per cent of Papua New Guineans who currently don't have access by 2030, according to Rick Hooper, Chief Executive Officer of Sydney-based solar company, Barefoot Power.
