

Pitcairn Islands iskus power

Can solar energy replace fossil fuels on Pitcairn Island?

Pitcairn's authorities have launched a renewable energy project designed to replace fossil fuels with solar energy. The goal is to replace 95% of the current diesel consumption on Pitcairn Island (75,000 liters per year) with a combination of energy saving and solar electricity through the installation of a hybrid photovoltaic solar energy system.

Are the Pitcairn Islands Green?

Pitcairn Islands, a group of five islands with a total area of 47 km² and which constitute one of the most remote archipelagos in the world, turn to safer, greener energies that best meet the needs of the population. Pitcairn's authorities have launched a renewable energy project designed to replace fossil fuels with solar energy.

What do you think of iskus power?

Iskus Power offered us first class service, their staff were professional and knowledgeable, disruption was minimal and the team genuinely showed an understanding of the needs of the bank and how to best meet our needs. Overall we are very pleased with the service, installation and performance of the system.

How many islands are in the Pitcairn Islands?

The Pitcairn Islands form the southeasternmost extension of the geological archipelago of the Tuamotus of French Polynesia, and consist of four islands: Pitcairn Island, Oeno Island (atoll with five islets, one of which is Sandy Island), Henderson Island and Ducie Island (atoll with four islets).

What's it like to work with iskus Power Ltd?

Working with Iskus Power Ltd on our 2nd Solar project was a great success and they have a good team of people right from when the initial consultation starts, through the design process, project sign off and installation on site. We would be more than happy to work with Iskus Power Ltd again on another project in the near future.

Where are the inhabited islands near the Pitcairn Islands?

Henderson Island accounts for 86% of the land area, but only Pitcairn Island is inhabited. The inhabited islands nearest to the Pitcairn Islands are Mangareva (of French Polynesia), 688 km to the west, [note 2] as well as Easter Island, 1,929 km to the east.
