Whether you install a rooftop or ground-mounted solar system, your panels remain in their racking equipment, generating energy for your home and larger electric-powered items like electric vehicles (EVs). Solar accessories such as portable solar panels allow you to use solar energy in various ways, including powering devices on the go.

P-Box 1.0 is a portable energy system based on advanced Lithium Ion Battery Technology. It is an ideal replacement for generators. It is a portable power source with no noise, no fume and no maintenance required.

- o Advantages Compared to Generators: - No noise - No fumes - No fuel - No maintenance - Light weight

An AC portable charger, also known as a portable power station or solar generator, is a device that provides AC (alternating current) power, similar to what you get from a wall outlet. This means you can use it to power a wide variety of devices, from laptops and smartphones to larger appliances like TVs and CPAP machines, depending on the capacity of the charger. visit us @ ...
