Does PNG have a solar farm?

At the utility scale, PNG has a few solar farms under development, with largely unchanged progress as most of the obstacles here are regulatory more than economic. PNG Power Ltd and the Department of Energy are supportive of these projects, but there are a lot of moving parts and all parties have worked hard to keep them on track.

Will solar power be the next stage in PNG?

Electricity in PNG is still very expensive and the cost of solar power continues to fall each year. Now we're seeing similar price drops for batteries, and I think that will be the next stage for solar projects, as many of them will begin to include energy storage.
