Does Puerto Rico need energy storage solutions?

"Isolated from typical supply lines, Puerto Rico needs solutions that reduce electricity costs, improve grid reliability, and accelerate renewable energy deployment," says DEPCOM Director of Energy Storage Nadja Gocek.

When will a solar project start in Puerto Rico?

The project, inaugurated on November 1 in Salinas, Puerto Rico, is expected to begin operations at the end of 2024. DEPCOM developed, procured, and is managing the installation of the 90 MW solar project. It includes a 51.5 MW on-site battery energy storage system (BESS).

What is depcom power doing in Puerto Rico?

The company is developing a 90 MW solar / 51.5 MW energy storage project with an agrivoltaic pilot program. DEPCOM Power, a solar engineering, procurement, and construction (EPC) and operations and maintenance (O&M) provider, held an inauguration event for the construction on Ciro One, the largest solar-plus-storage project in Puerto Rico.

Does the DOE support energy resilience in Puerto Rico?

The DOE Office of Electricity and Solar Energy Technologies Office have funded past activities. Register for our online community to communicate with the project team and other stakeholders on the DOE initiatives to support energy resilience in Puerto Rico, including opportunities to engage in the PR100 Study.

Will Puerto Rico reach 36% renewables by 2025?

The U.S. territory could reach 36% renewables by 2025 if 3.75 GW of utility-scale solar and 1.5 GW of storage that Puerto Rico has mandated the utility PREPA to procure were constructed and interconnected by year-end 2025, which would be "very rapid deployment," the national laboratories said in a report.

How long will depcom operate a hybrid system?

DEPCOM will also operate and maintain the hybrid system for a five-year period. "We are honored to join our partners on this landmark project for Puerto Rico," says DEPCOM CEO Johnnie Taul.

4 ???&#0183; A team led by Puerto Rico Public Housing Administration is negotiating for an award of up to \$83.2 million from the Energy Dept., and a team led by Dynamic Solar Solutions is ...

The SAMPOL group signed a purchase agreement for two new energy-efficient power plants, supplied with Bergen engines, for the life-science industry in Puerto Rico. The plants are powered by four Bergen engines" ...
