

Is solar PV a good investment in Bulgaria?

It is now economic for commercial and industrial customers in Bulgaria to invest in solar PV projects, without subsidies and without government incentives. As a result, the market for distributed solar PV in Bulgaria is starting to grow.

Why is the market for distributed solar PV growing in Bulgaria?

As a result, the market for distributed solar PV in Bulgaria is starting to grow. Remarkably, the growth of the market is occurring despite the lack of a clear policy and regulatory framework, and in spite of the presence of many administrative and tax-related barriers.

What is the biggest solar PV plant to be built in Bulgaria?

This is also one of the biggest solar PV plants to be constructed in Bulgaria in recent years. With the solar PV plant, Aurubis Bulgaria will save some 11.700 MWh per year from grid electricity consumption (sufficient for approx. 12.000 households), which will cover an average of 2.5% of the electricity needs of its smelter facility.

How big is Bulgaria's solar power market?

This is a large market with rapidly increasing purchasing power. For the first time after a decade, a 58 MW new large-scale solar photovoltaic power plant of the Bulgarian company Real States was connected to the grid in April 2022, with the expectation to be increased to 150 MW.

When will solar projects start in Bulgaria?

Several large-scale solar photovoltaic (PV) projects with a power capacity above 50 MW were launched into commercial operation in Bulgaria in 2022. Local and international investors will build new solar projects between 2023 and 2025. In the last few years, Bulgaria has been the focus of the investors' interest.

Should Bulgaria establish a public registry of certified solar PV installers?

Bulgaria should establish a public registry of certified solar PV installers similar to those found in other markets around the world. Installers applying to be on the list would have to pay a fee to help offset the costs of certification.

Solar panels in Cyprus are used for residential, industrial and commercial properties. Other than home use, many businesses install photovoltaic panels in Cyprus for self-consumption. That is, they use the energy the photovoltaic ...

We specialize in the construction of photovoltaic systems for business, home and solar power plants. We provide reliable and cost-effective solutions for the use of renewable energy for the ...

o Overview of Bulgarian photovoltaic market development 2012 &#247; 2032 o Grid-connected solar photovoltaic power installations in Bulgaria for 2022/2023 o Future market trends and planned ...

Development of operational solar PV power plants in Bulgaria started with very moderate steps in 2007 but progressed with fast paces after the second half of 2010. At the end of 2020 cumulative installed solar PV capacity in Bulgaria ...
