

Can solar power plants help Bhutan achieve energy security?

The solar plant in Rubesa is one such initiative which takes Bhutan a step closer to achieving energy security through a diversified and sustainable energy supply mix. The project particularly demonstrates viability of solar power plants on a utility scale.

What is Bhutan's largest solar project?

The Sephu project will be Bhutan's largest solar facility. Credit: Bhutan ministry of energy and natural resources The Bhutanese government has started construction on the country's first utility-scale solar farm, the Sephu solar project, which boasts a capacity of 17.38MW.

Why should Bhutan invest in solar power?

Like hydropower, sun is a bountiful resource Bhutan can tap into for producing renewable energy in keeping with our carbon neutrality commitments and also for enhancing energy security through diversification of energy sources. The commissioning and inauguration of the 180kW grid-tied ground mounted solar photo-voltaic power plant

Is grid-tied solar a viable alternative energy source in Bhutan?

The commissioning and inauguration of the 180kW grid-tied ground mounted solar photo-voltaic power plant marks the start of Bhutan's investment in grid-tied solar energy as a viable alternative energy source in the face of soaring domestic demand and climate change.

What is Bhutan's first solar farm?

The Bhutanese government has started construction on the country's first utility-scale solar farm, the 17.38MW Sephu solar project.

Who inaugurated a solar power plant in Bhutan?

4 October 2021: The Chairperson of the National Council of Bhutan, Lyonpo Tashi Dorji, inaugurated the 180 kW grid-tied ground mounted solar photo-voltaic power plant at Rubesa, Wangduephodrang today.

The Sephu plant will be the first utility-scale project in Bhutan's solar sector, with just a 180kW plant in Rubesa already in operation, and will be a core component of Bhutan's growing solar...

Solar PV can be a catalyst to clean fleet by becoming the source of clean fuel as mobile energy storage. In the case of a pilot project in Bhutan, the same is true as Bhutan intends for 100 % ...

The Aja Ney solar PV project is first of a kind with battery storage system and it will be completely operated on off-grid modality. The project manager said that this project would benefit more than 34 households including community guest ...

The Sephu plant will be the first utility-scale project in Bhutan's solar sector, with just a 180kW plant in Rubesa already in operation, and will be a core component of Bhutan's ...

The European Investment Bank (EIB) has agreed to lend EUR150 million (\$160.2 million) for renewables in Bhutan, in order to fund solar and hydropower installations in remote regions. Solar facilities are expected to ...
