With a career deeply rooted in the energy sector, Khalid is driven by a belief that clean, reliable, and affordable energy should be a basic human right, not a privilege. "The energy transition is undeniably the most critical challenge of our time, and it plays a key role in the development of our global economy," he asserts.

An increase in investment in Qatar's ever-growing energy sector has also led to a rise in energy-related arbitrations. This article considers Qatar's oil and gas sector, followed by an introduction to the country's arbitration law and a brief overview of the arbitration of oil and gas disputes in this jurisdiction. 1. Introduction
