

Rimac energy Taiwan

Who is Rimac energy?

This fast-growing #BatteryEnergyStorageSystems designer, developer, and manufacturer from Croatia joins the conference as a silver sponsor. Rimac Energy, a division of Rimac Technology, headquartered in Zagreb, Croatia, with additional offices in Witney, Oxfordshire, specializes in advancing Battery Energy Storage Systems #BESS technology.

Where are Rimac systems developed?

Our systems are developed fully in-house and produced in Europe. Everyone at Rimac has a passion for solving complex problems, pushing boundaries, and challenging the status quo. Individually you can make a real impact to our business; together we can change the way we power the planet for good.

What makes Rimac energy stand out?

"What makes Rimac Energy stand out, is the emphasis on fostering an open and supportive work environment, where everyone feels welcome and valued. I appreciate that we prioritize creating a clear sense of higher purpose, which helps everyone understand the bigger picture and work towards a common goal."

What does Rimac do?

As part of the broader Rimac Group, the company focuses on designing, developing, and manufacturing innovative stationary BESS solutions entirely within Europe.

Why should you work at RIMAC?

Everyone at Rimac has a passion for solving complex problems, pushing boundaries, and challenging the status quo. Individually you can make a real impact to our business; together we can change the way we power the planet for good.
