iCarib is a Saint Lucia based company that offers high quality solar power technology, both for electricity production as well as for hot water supply to all private households and commercial entities who want to support a sustainable lifestyle and cut electricity costs at the same time.

St. Lucia electricity is 240 Vac 50 Hz, but power outages are common due to extreme tropical weather and electrical systems that can be unreliable. AIMS Power inverters, inverter chargers, solar panels and other electrical system products can create reliable sources of backup power that residents of St. Lucia need for safety and peace of mind.

Using a solar battery can help users to reduce the amount of electricity they would normally buy during peak hours. The battery can store the extra energy produced from solar panels during the day to avoid using electricity at a more expensive rate.
