

# Samsung battery lithium ion Suriname

What is the Galaxy battery?

The Galaxy features an integrated state-of-the-art Lithium-ion (Li-ion) battery.

Where can I dispose of old Samsung batteries?

Always dispose your old batteries to a battery recycling centre. The Samsung INR21700-50E is one of the highest capacity 21700 batteries. The Samsung INR21700 50E is a fantastic alternative to the older Samsung 48G with a whopping 4900mAh capacity.

Who makes 21700 batteries?

Discover 21700 batteries from reputable manufacturers like Molicel, Samsung, LG and Sony at Nu Battery. Our commitment to quality is reflected in our authenticated and batch-tested products, ensuring that customers can make their purchase with complete confidence.

Are Samsung Galaxy batteries safe?

Samsung Galaxy complies with international safety standards in order to provide safe and high-quality batteries. We provide batteries that have gone through internal verifications and quality tests by trusted third-party CAs. ? Additional certificate outside of the global requirements may vary by country/product. Get connected with Samsung Account.

Can a lithium ion battery be damaged?

Lithium-Ion batteries can easily be damaged by charging them with too high current or exceeding the maximum rated current discharge. We are bound by the Office for Product Safety and Standards in the UK to advise that Samsung have not designed, manufactured, endorsed or otherwise approved these products for use by consumers.
