

# San Marino esco power

How can San Marino reduce emissions?

Entirely dependent on external imports for fuel and energy production, its strategy to cut emissions is to improve energy efficiency in buildings while developing infrastructure for solar power generation. One of the smallest countries in the world, San Marino depends entirely on imports for fossil fuels and energy.

Who is ESCO power?

Esco Power supplied its unique and complete parallel hybrid system for the UK's first hybrid speed passenger ferries. Do you want to know more about this project click here. ESCO Power is now also active on Instagram. You can find here stories and pictures about our journey. We will post our stands on exhibitions.
