What is a Liam F1 mini urban wind turbine?

The Liam F1 Mini Urban Wind Turbine is a small wind turbine with a diameter of 0.75 meters which weighs approximately 32 kilograms. Due to its size and weight it is (like the Liam F1) suitable for installation on almost every roof and wall. Due to its smaller size the mini will generate approximately 1/4 of the yield of a Liam F1.

What is Liam F1 UWT flat roof construction?

Liam F1 UWT Flat Roof construction Liam F1 is specially designed for an urban environment with turbulence (rotating wind) so installation on a large pole is not required, it suffices if it just rises slightly above the roof/the wall. The turbine can be supplied in any given color so it blends in.

How much energy does a Liam F1 generate?

As a result, the Liam F1 can consistently generate power regardless of the wind's direction or speed. With the ability to capture wind energy efficiently at wind speeds as low as 5 m/s, the Liam F1 produces approximately 1,500 kWh annually--enough to meet the energy needs of a typical urban home.

Does Archimedes Liam F1 mini wind turbine ship internationally?

The Archimedes Liam F1 MINI Urban Wind Turbine Shipping within three days after payment is received. Quality support by phone or in person for all of our products. We are happy to ship orders internationally, but for faster service (and potentially less expensive shipping options), you might try one of our international distributors.

What is a Liam wind turbine?

Liam F1 The Archimedes is an innovative wind turbine design: small, silent, and affordable. Based upon the writings and methods of the Greek mathematician Archimedes the design mimics a shellfish, the Nautilidae (translated as sailor). We did 10 years research and development of the wind turbine Liam, and the results are spectacular.

Is the Liam F1 a good choice?

Despite its small size, the Liam F1 doesn't compromise on power. Its compact design allows for easy integration into residential environments without taking up too much space, while its lightweight structure ensures hassle-free installation.

The LIAM F1 UWT is one of the few devices out there that can provide you with energy independence. The LIAM F1 turbines, which are practically noiseless and capable of catching wind from any direction are perfect for people living in urban areas. These turbines were designed with the aim of revolutionizing home energy systems.

The LIAM F1 UWT is transforming the way homeowners think about renewable energy. Compact, efficient, and whisper-quiet, this small wind turbine offers a practical alternative to traditional renewable energy systems, making clean energy generation accessible for residential spaces.

The LIAM F1 UWT, on the other hand, capitalizes on wind currents--an often-abundant resource in urban settings. With an annual energy output ranging from 300 to 2,500 kWh, this turbine can significantly supplement household energy needs, ideally complementing solar solutions to create a robust renewable energy strategy.
