

SPIC HHDC has been expanding its international presence in MENA region, partnering on major projects like the Red Sea Utility Project, Ar Rass 700MW Solar PV IPP and 91MW Solar PV IPP in the Kingdom of Saudi Arabia.

The 1,000 MW Al Masa'a project is located in the Dharghat Town, Hail province, Saudi Arabia. Set to be flagship solar plants in the Kingdom, the projects will be developed, built, owned and operated by the consortium as part of a 25-year agreement with the off-taker SPPC.

These flagship solar projects, developed under a 25-year agreement with the off-taker SPPC, are set to play a crucial role in achieving Saudi Arabia's goal of increasing renewable energy's share in its energy mix to 50% by ...

A consortium of France's EDF Renewables and China's SPIC Huanghe Hydropower Development Co. (HHDC) has successfully bid for two solar projects in Saudi Arabia's fifth renewable energy tender.

TotalEnergies will build a 0.3 gigawatt (GW) solar park in Saudi Arabia, while EDF Renewables will build two solar parks totalling 1.4 GW as part of a series of deals announced on Tuesday...

EDF Renewables and SPIC HHDC Consortium wins bid for two solar IPP Projects in Saudi Arabia with 1,400 megawatt capacity. Consortium led by EDF Renewables signs Power Purchase Agreement to develop, finance, build and operate 1,400-megawatt (MW) projects in KSA after submitting competitive bid

A consortium led by EDF Renewables Middle East and China's SPIC Huanghe Hydropower Development Co. Ltd has signed power purchase agreements (PPAs) with Saudi Power Procurement Company (SPPC) for two major solar projects in Saudi Arabia, totaling 1,400 megawatts (MW).

Set to be flagship solar plants in the Kingdom, the projects will be developed, built, owned and operated by the consortium as part of a 25-year agreement with the off-taker SPPC. Both solar parks will help to achieve the target of increasing the share of the renewables in the country's energy mix to around 50% by 2030, while boosting the ...

EDF Renewables and SPIC signed 25-year agreements for two solar projects totaling 1,400MW in Saudi Arabia, valued at USD 850 million. The projects will power 240,000 homes annually, cutting 2.7 million tons of CO₂ emissions.

The 1,000 MW Al Masa'a project is located in the Dharghat Town, Hail province, Saudi Arabia. Set to be flagship solar plants in the Kingdom, the projects will be developed, built, owned and ...
