

Sbs 60 battery Egypt

Why should you choose EnerSys powersafe SBS 60 batteries?

The advanced thin plate, pure lead technology and unique manufacturing methods used by EnerSys make PowerSafe SBS batteries the choice for long and trouble-free service. The EnerSys PowerSafe SBS 60 batteries are manufactured to the highest standards and ideal for all wireless and fixed-line communication applications.

What makes powersafe SBS batteries a good choice?

The advanced pure lead plate technology and unique manufacturing methods used by EnerSys help ensure PowerSafe SBS batteries for first choice for long and trouble-free service for essential applications. Classified as 'long life' according to Eurobat guide 1999. High energy density.

What is a powersafe sbs60?

The PowerSafe SBS60 is smaller than the competition so the design of the front terminal series offers improved flexibility where space is limited and makes installation and maintenance easier and faster. The PowerSafe SBS60 is designed to cope with raised temperatures and harsh environments.

What battery sizes are available for powersafe SBS batteries?

PowerSafe SBS batteries are available in both 12-volt front-terminal and 2-volt OPzV and OPzS DIN container sizes, and an extensive range of Ampere-hour (Ah) capacities, providing flexibility to fit any setup.

What is a powersafe SBS 2V & 12V battery?

Where conventional VRLA AGM batteries struggle to cope with harsh conditions and frequent power outages, EON Technology makes PowerSafe SBS 2V and 12V batteries the perfect solution for the challenging operating conditions of today's telecommunication networks.
