

What is the energy mix in Senegal?

In 2013, the Republic of Senegal adopted the strategic energy plan, which aimed to increase the energy mix dynamic in the country for a five years (2013-2018). The energy mix refers to the development of power generation from coal, gas, hydro, solar and wind. Current percentages of power generation:

How will Senegal's power sector be strengthened?

Senegal's power sector would be strengthened by continued diversified investment in power, including renewables and natural gas, while phasing out heavy fuel oil. Senegal Energy Outlook - Analysis and findings. An article by the International Energy Agency.

When will West African Energy open a gas power station in Senegal?

West African Energy, a Senegalese energy company, plans to open Senegal's first and largest 300 MW combined cycle gas power station in January 2024.

What is Senegal's energy policy?

The IEA's Energy Policy Review of Senegal 2023, published today, finds that energy is at the heart of Senegal's 2035 strategy for accelerating sustainable development and economic growth known as the Plan Sénégal 2035, or the Emerging Senegal Plan.

How much power does Senegal produce?

Current percentages of power generation: Between 2013 and 2018, plants producing 143 MW of solar PV, 201 MW of heavy oil convertible into natural gas and 15 MW of hydroelectricity (from the Organization for the Development of the Senegal River infrastructures) and 125 MW of coal power were installed.

Will Senegal's economy grow six-times bigger in the AC?

Senegal's economy could grow six-times larger in the AC while limiting growth in energy demand to three-times its current level by utilising new gas resources and boosting the use of renewables in power. In the AC, gas meets a growing share of energy demand while traditional use of biomass starts to decline in rural areas. IEA. Licence: CC BY 4.0

It is one of the single largest companies in the country and plays a crucial role in Senegal's power sector as the company in charge of producing, transporting, distributing, ...
