Die Anwendungsregel VDE-AR-E 2510-50 legt die Sicherheitsanforderungen an stationäre Batteriespeicher "BESS" (en: battery energy storage systems) mit Lithium-Batterien fest. Sie legt Anforderungen fest, welche die Sicherheit des Speichers während seines kompletten Lebenszyklus gewährleisten sollen - dies sind Lagerung, Transport ...

[illegible]

Science and technology institution VDE created VDE-AR-E 2510-50 in May 2017 as a set of specifications for safety requirements for stationary battery energy storage systems (BESS) with lithium batteries. The VDE standard put forward strict technical requirements and test conditions for energy storage systems in terms of electrical safety ...

Pylon Technologies (Pylontech), which already achieved the 2PfG 2511 and VDE-AR-E 2510-50 accreditation in 2017 -- and in fact was the first company to do so -- said earlier this month that it is now the first Chinese manufacturer to pass Japan's stringent earthquake test requirements. Pylontech received Earthquake Disaster Countermeasures ...
