

Sinochem energy storage field planning

How many oil and gas projects does Sinochem have?

In the energy sector, Sinochem has 32 oil and gas upstream cooperation projects in nine countries, with about one billion barrels interest, the 15 million mt/year Quanzhou Petrochemical in southern China, 1,368 branded retail gas stations and 5.12 million cu m of domestic storage capacity, according to its company website.

Will Sinochem merger help ChemChina's oil trading & refining business?

"The merger is more likely to help in ChemChina's oil trading and refining businesses as it would bring in Sinochem's expertise and resources," a Hong Kong-based analyst said, adding that crude buying and oil products selling would be the areas that would see early benefits.

Why should you choose Sinochem energy?

Following the trend of digitalization, we continue to develop our business and upgrade the industry through our self-developed e-platform of petroleum and petrochemical products. Sinochem Energy is committed to becoming the practitioner of high-quality and sustainable development in China's energy and petrochemical industry.

Will Sinochem Group merge its key business first?

"It will take a long time for the giants to merge their key businesses first, their chemicals business and energy," a Beijing-based analyst said. Sinochem Group is an integrated operator in the oil and chemicals industry, providing agricultural inputs -- seeds, agrochemicals and fertilizers -- and modern agricultural services.

How many refineries does ChemChina have?

In comparison, ChemChina was set up in 2004 and currently owns four operational refineries, with a total capacity of 22.2 million mt/year capacity. The capacity was expanded through the acquisition from the country's independent sector.

The meeting pointed out that Sinochem Group should carry the spirit of the Fifth Plenary Session through the compilation of the Group's 14th Five-Year Plan, resolutely implement the reform and development of state-owned enterprises and support the implementation of the national 14th Five-Year Plan in the field of comprehensive chemical industry.
