

In South Africa, the average household uses between 900 and 1200 kWh per month, but this can vary depending on the number of occupants, the size of the home, and the appliances you use. Understand the Different Types of Solar Systems. There are three primary types of solar systems to consider: grid-tied, off-grid, and hybrid systems.

We understand that, and that's why we've curated three exceptional solar packages to cater to your unique needs. Each package only has Tier 1 components, which comprise of solar panels for your home, an inverter and battery backup system to ensure that energy is available even when the sun isn't shining.

Whether it's for your business or home, a solar power system means more productivity and less stress. With SSES, you get an engineer-designed solar solution with comprehensive support and after-sales service. We're with you for your entire solar journey, so with our modular turnkey systems, from day one you can enjoy "free under the sun".

Quer instalar um sistema de energia solar para autoconsumo em casa? Saiba o que é, preciso e que contas a fazer antes de colocar painéis solares. sobre nós.
